Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Amendment

1. In response to the Office Action mailed 45 April 2008, applicant submitted a response filed 03 November 2008, in which the applicant amended claims 1 and 11 without adding new matter. Claims 2-3, 6 and 9-10 have been cancelled.

Response to Arguments

2. Applicant's arguments, see Remarks, filed 03 November 2008, with respect to claims 1 and 11 have been fully considered and are persuasive. The rejections of 25 April 2008 have been withdrawn. See applicants' remarks filed 03 November 2008 for reasons why current claims sufficiently overcome prior art.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1, 4-5, 7-8 and 11-14 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 11 falls under the statutory category of a process. Current guidance suggests that a process must be tied to another statutory class (such as a particular apparatus) of transform underlying subject matter (such as an article or materials) to a different state or thing. Thus, to qualify as a § 101 statutory process, the claim should positively recite the other statutory class (the thing or product) to which it is tied, for example by identifying the apparatus that accomplishes the method steps.

Claim 1 is also rejected under 35 U.S.C. 101 because when each limitation of a claim that appears to be directed to a machine such as a "system", "apparatus", or "arrangement", if the claim is reasonably read on the corresponding software portion of the disclosure, the claim as a whole as directed to entirely a software embodiment, not a hardware embodiment. Therefore, it is necessary to ensure the software-only embodiments are positively excluded, or else an amendment to the specification to delete the software-only embodiments will be sufficient.

In the specification, page 2, paragraphs [0009] [0010], present a scenario where mechanisms and components could be carried out using software architecture.
